

**HD SKINSTEM**  
GF COMPLEX

## Rejuvenate • Brighten • Regenerate

**Human Growth Factors (EGF, FGF) • Copper Peptides (GHK-Cu) • Vitamin C, B2, B3, B5, B6, H • Hyaluronic Acid**

**GF Complex** is highly concentrated, topically applied, purified growth factor formulas that are designed for use with clinical modalities that enhance penetration. e.g. **microneedling (manual or automated), non-ablative lasers, radiofrequency, ultrasound, LED and photodynamic rejuvenation devices.**

**10 vials X 4ml [Clinical use only]  
FDA-Registered Manufacturer**

We use premium sources for the growth factors, and scientifically advanced methods of production and filtration ensure highly stable, pure, concentrated products. We produce it in small batches and always deliver in fresh condition.

Featured Ingredients	Function	Skin Benefits
<b>Copper Tri-Peptide 1</b>	Firming peptide, antioxidant	<ul style="list-style-type: none"> <li>• Can be effective against skin irritation, mainly due to its anti-inflammatory effect, during and after esthetic treatments.</li> <li>• Optimizes healing and improves skin remodeling after controlled skin injury procedures.</li> <li>• Promotes collagen and elastic production.</li> </ul>
<b>Purified Fibroblast Growth Factor (FGF)</b>	Restore, repair, rejuvenate	<ul style="list-style-type: none"> <li>• Stimulates fibroblast synthesis to create new collagen and elastin to help firm, smooth, increase moisture content, tone skin texture, and increase “snap-back” value.</li> <li>• Enhances wound healing process and regeneration time frame.</li> <li>• Plays a role in new blood vessel formation to strengthen microcirculation to speed up healing time and the skin renewal.</li> </ul>
<b>Purified Epidermal Growth Factor (EGF)</b>	Restore, repair, rejuvenate	<ul style="list-style-type: none"> <li>• Stimulates keratinocyte and fibroblast synthesis to enhance skin tone, texture, moisture balance, and wound healing and to provide a healthy, vibrant, youthful complexion.</li> <li>• Enhances the wound healing process following severe burns.</li> <li>• Helps regulate cellular bioactivities, leaving skin more stress resistant, and helps to balance barrier protection, promoting healthier skin function.</li> </ul>
<b>Palmitoyl Tetrapeptide-7</b>	Smoothing regenerating	<ul style="list-style-type: none"> <li>• Significantly increases skin elasticity, firmness, and tone.</li> </ul>
<b>Vitamin C</b>	Vitamin	<ul style="list-style-type: none"> <li>• Antioxidants that neutralize free radicals to support the skin’s ability to heal, regenerate, and prevent premature aging.</li> </ul>
<b>Vitamin B2, B3, B5, B6</b>	Vitamins	<ul style="list-style-type: none"> <li>• Increases resistance to photo-aging and helps prevent immuno-suppression and skin cancer caused by UV rays</li> <li>• Enhances cell metabolism and the results of growth factors.</li> </ul>
<b>Vitamin H</b>	Vitamin	<ul style="list-style-type: none"> <li>• Works alongside B vitamins to support cell metabolism and overall healthy function of the skin.</li> </ul>
<b>Hyaluronic Acid</b>	Humectant, emollient	<ul style="list-style-type: none"> <li>• Provides essential cellular lubrication.</li> <li>• Enhances transport of cell communications &amp; migration and delivery of active ingredients.</li> <li>• Supports healthy cell function.</li> </ul>

Package: 10 vials X 4ml [Clinical use only]. Not Injectable.
